

Sonoma Valley Climate Coalition City Council Candidate Forum

September 27 at 7:00, Burlingame Hall

Join the Sonoma Valley Climate Coalition for a candidate forum on advancing climate change solutions within the City of Sonoma.

Cities produce approximately 75% of global CO₂ emissions, and therefore must be an integral part of the solution. While the City of Sonoma cannot singlehandedly address the growing threat of climate change, the urgency of this problem necessitates doing all we can.

September 27, 7:00 - 8:30
Burlingame Hall
252 West Spain Street
